WORLDWIDE MARKET SCOPE / USD

The first three products to quote

01 **COSRX The 6 Peptide Skin Booster**
Copper Tripeptide-1 gives the shop a clear peptide skincare story. Start here for a face-serum lead.

02 **Beauty of Joseon Red Bean PDRN + Peptide**
Lower shelf price and a 20-unit ABW carton listing. HMT currently lists 80 units for the same 30 mL product.

03 **The Ordinary Multi-Peptide Hair Serum**
Tests demand for scalp care. Pair it with a manual scalp brush when the combined margin works.

How to use this report

These are ready-formulated consumer product catalog leads. Both sites reserve buying prices for approved accounts. Each row gives a buying cap and identifies its shelf price as a published reference or a planning target. Confirm exact stock, formula, shipping and resale territories before paying.

Peptide serums and tone care

Quote one copper-peptide lead, one lower-priced serum and one tone-care SKU.

40	**AROMATICA Serene Body Wash, Lavender & Marjoram** 300 mL / Bundle A matching body-wash option. The 15-unit minimum helps with testing, while shipping favors combined orders.	HMT Korea catalog HMT-001189 / min. 15	**$20.00** Planning price **$10.00 max** $4.00 allowance

Buying caps assume 30% contribution before outbound shipping and ads. Individual listings and carton sizes require a stock and destination check.

Tools, devices and sun care

Manual tools give you add-ons outside skincare formulas. Keep powered devices and SPF market-specific.

	PRODUCT / COMMERCIAL FIT	WHOLESALE SOURCE	SHELF / BUYING CAP
41	**MOEV Scalp Massage Brush** 1 brush / Quote first A practical scalp-serum companion. ABW lists territorial restrictions, so confirm your planned destinations.	AsianBeautyWholesale Individual listing	**$15.00** Planning price **$9.00 max** $1.50 allowance
42	**AROMATICA Wooden Scalp Brush, Medium** 1 brush / Quote first Non-liquid scalp accessory and a lower HMT minimum than the small brush in the same catalog.	HMT Korea catalog HMT-001215 / min. 25	**$18.00** Planning price **$11.10 max** $1.50 allowance
43	**DR.PEPTI Ceramic Multi Gua Sha** 1 tool / Bundle Manual face tool for a serum or moisturizer bundle. Include protective packaging in the landed quote.	AsianBeautyWholesale Individual listing	**$20.00** Planning price **$12.00 max** $2.00 allowance
44	**Meditherapy Soksal Gua Sha** 1 tool / Alternative Second manual face-tool quote. The 100-pack is better suited to a proven reorder than a pilot.	AsianBeautyWholesale 100-pack listing	**$18.00** Planning price **$10.60 max** $2.00 allowance
45	**Medicube AGE-R Booster Pro Mini, Pink** 1 set / Market check Higher-ticket device. ABW's English-version listing is a lead. Verify battery shipping, warranty and returns.	AsianBeautyWholesale English-version listing	**$80.00** Planning price **$46.00 max** $10.00 allowance

47	**Beauty of Joseon Relief Sun Aqua-Fresh Rice + B5** 50 mL / Market check A daytime routine companion. Verify the exact SPF formula and clearance for each country before buying.	HMT Korea catalog HMT-001680 / min. 120	**$18.00** Planning price **$9.60 max** $3.00 allowance
48	**Round Lab Birch Juice Moisturizing Sunscreen** 50 mL / Market check Another SPF quote if you can source the correct destination-specific version. Use market-specific listings.	HMT Korea catalog HMT-012413 / min. 60	**$21.00** Planning price **$11.70 max** $3.00 allowance

Buying caps assume 30% contribution before outbound shipping and ads. Individual listings and carton sizes require a stock and destination check.

Margins and bundle pricing

Use the shelf price after discounts and excluding sales tax or VAT.

Maximum landed cost per unit

70% of net merchandise revenue minus the selling allowance. Then subtract any outbound delivery and ad costs VETUD pays to preserve that 30% target. Landed cost includes product, inbound freight, duty, brokerage and nonrecoverable taxes allocated per unit.

One bottle, four outcomes

Illustration for a COSRX bottle with an **$11 landed cost** and a **$3 selling allowance**.

SCENARIO	NET SALE	EXTRA COST	LEFT / MARGIN
At the $25 reference	$25.00	$0.00	**$11.00 / 44%**
At $25 with delivery and advertising	$25.00	$6.00	**$5.00 / 20%**
10% discount, same delivery and ads	$22.50	$6.00	**$2.50 / 11%**
20% discount, same delivery and ads	$20.00	$6.00	**$0.00 / 0%**

Three bundles to test

Copper peptide + barrier duo — **$42.00 test price**

COSRX booster + Purito cream — **$24.40 max combined landed**

One hero serum and a full-size moisturizer.

Scalp routine — **$34.00 test price**

The Ordinary serum + MOEV brush — **$19.80 max combined landed**

A consumable with a reusable manual tool.

Red Bean face duo — **$36.00 test price**

Beauty of Joseon Red Bean serum + Dynasty Cream — **$20.20 max combined landed**

Same-brand routine with a lower entry price.

Bundle prices are test scenarios. The combined buying cap already deducts a modeled bundle selling allowance. Reduce it further for delivery or advertising paid by VETUD.

From catalog to first order

Use the two suppliers for different order sizes and confirm each SKU's territory terms.

AsianBeautyWholesale / mixed pilot

$250 merchandise minimum before shipping. Many catalog items can be quoted in small quantities. Single listings and bulk cartons have separate stock, price and destination rules. Ordering terms Shipping terms

HMT Korea / volume and repeat orders

$1,000 merchandise minimum plus each SKU's minimum quantity. Pricing requires an approved account. The buyer appoints a carrier or forwarder. Confirm the handover point and inbound freight before comparing unit costs. HMT wholesale FAQ

Send these four lines with every quote request

01 Exact product

Name, size, SKU or barcode, formula or packaging version, carton quantity, current stock and expiry.

02 Pricing

Unit price at the smallest order and two reorder tiers, freight to the dispatch point, and who covers each charge.

03 Selling rights

Countries and online channels you can sell into, any minimum resale price, and permission to use product images.

04 Documents and service

Commercial invoice, batch traceability and destination documents. For devices, get warranty and returns terms.

First cart to price

Quote **COSRX booster, Beauty of Joseon Red Bean serum, and The Ordinary hair serum** through ABW. Add the MOEV brush only if the permitted territories overlap and the combined economics work. Use HMT to benchmark a larger COSRX reorder. The prior HMT 20-unit figure for the Red Bean serum is superseded by its current 80-unit listing.

Catalog research accessed 9 November 2026. Carton counts describe the linked packs. HMT minimums describe its catalog order thresholds. Listings can change by account or destination. Confirm that your store terms, labels and advertising accurately describe the finished consumer products you sell.

Arey and the Korean leads

A finished-product comparison for a grey-care or peptide scalp-care range.

What Arey's The System contains

Not Today, Grey, a daily nutritional supplement, and **To The Root**, a leave-on scalp serum. The serum ingredient list includes **Palmitoyl Tetrapeptide-20 Amide** in the brand's Mela-9 complex. Arey positions the pair for grey-hair care and fuller-looking hair. Its one-month reference is **$103** for a one-time purchase. The brand's reported clinical results apply to the combined system. Arey system and ingredients

Closer ingredient lead

RU:T Hair Ageless Clinic Ampoule, 100 mL

The ELRISE seller listing on BuyKOREA names GREYVERSE and states a **60-unit minimum**. An archived 2023 label explicitly lists **Palmitoyl Tetrapeptide-20 Amide**, plus Copper Tripeptide-1 and other peptides. This makes it a closer ingredient lead than a generic PDRN scalp product. Request the current full ingredient list, exact formula version and country-specific sales documents. The archived label alone cannot establish current commercial status or equivalent results to Arey. Wholesale inquiry listing Archived ingredient label

On your existing wholesaler

SOME BY MI Cica Peptide Derma Scalp Tonic

AsianBeautyWholesale lists this ready-formulated scalp tonic. Its posted ingredient list includes **Copper Tripeptide-1, Hexapeptide-9 and several other peptides**, plus panthenol and biotin. Alcohol denat., menthol and fragrance also appear in that list. It is a candidate for the broader scalp-care category. The listed formula does not contain Arey's Palmitoyl Tetrapeptide-20 Amide, so give it its own product claims and positioning. SOME BY MI wholesale listing

How I would source this category

Ask HMT and ABW to search by the exact ingredient **Palmitoyl Tetrapeptide-20 Amide / GREYVERSE**, and provide finished-product names, full ingredients and approved resale countries. I could not verify an exact Arey-system equivalent in their public catalogs. RU:T is an additional Korean supplier lead. Wholesale prices remain quote-only.

For the first cart, keep peptide scalp care as the tested category. Treat grey-care as a separately verified proposition until the current formula, evidence and market terms are confirmed. All comparison links were accessed 9 November 2026.

Quality, demand and buying risk

Use documents and a small sales test to replace guesses about product quality or success probability.

What this report can establish

Public catalog presence, named ingredients, sizes, pack counts, supplier terms and a few linked retail-price references. Website reviews and peptide names cannot establish the delivered batch's authenticity, stability or your likely sell-through.

Four checks before a stock order

01 **Formula and identity**

Match barcode, size and formula version across the supplier listing, manufacturer label and delivered sample.

02 **Authenticity and traceability**

Get a commercial invoice, batch and expiry details, and the seller's documented brand supply route.

03 **Finished-product experience**

Inspect a sealed sample for packaging, pump or applicator quality, leakage, scent and texture. Keep a batch record.

04 **Selling territory and claims**

Confirm permitted countries, labeling, ingredient restrictions and the exact claims supported for that finished product.

Test conversion and contribution

Illustration for a **$34 scalp bundle**, with **$16 landed stock** and a **$4 selling allowance**. Delivery is customer-paid at cost. A $30 ad test brings 100 visits. These are assumptions you can replace.

ORDERS / 100 VISITS	NET SALES	AFTER AD SPEND	MARGIN
1 orders / 1% conversion	$34.00	**$-16.00**	**-47%**
2 orders / 2% conversion	$68.00	**$-2.00**	**-3%**
3 orders / 3% conversion	$102.00	**$12.00**	**12%**
4 orders / 4% conversion	$136.00	**$26.00**	**19%**

At these assumptions, break-even conversion is about **2.14%**. Absorbing $6 delivery per order raises it to **3.75%**. The model excludes fixed overhead, income tax and currency changes.

A defensible probability of commercial success needs your traffic, conversion, acquisition cost, reorder rate and actual landed quotes. The ranked shortlist is a buying hypothesis. Reorder the products with measured positive contribution and repeat demand.
